

Harris County Hazard Mitigation Plan Public Survey.

A range of natural and human-caused disasters can affect any community. Harris County, its incorporated cities and special purpose districts, collectively known as the "Greater Harris County Region," work diligently to mitigate threats and prepare for disasters. To maintain a high level of preparedness, we need your help to identify and plan for future disasters. Data collected through this survey will help the Greater Harris County Regional Local Hazard Mitigation Plan Steering Committee to:

- Assess our residents' level of awareness regarding disasters;
- Determine areas vulnerable to various types of disasters;
- Coordinate activities to reduce the risk of injury or property damage in the future; and,
- Update the multi-jurisdiction Local Hazard Mitigation Plan.

The survey can be located at the following link:
